

iSAID Plane	5,447 instances	512 images = 4 × 128 strata	Independent human reference
iSAID Small Vehicle	12,051 instances	512 images = 4 × 128 strata	Independent human reference
SAMRS Plane	3,713 instances	512 images = 4 × 128 strata	Published SAM-derived reference
SAMRS Small Vehicle	7,659 instances	512 images = 4 × 128 strata	Published SAM-derived reference

Key control: predictions are frozen; only the evaluation reference changes. GT self-reference diagonal is an identity control, not performance.
